

SUMMARY

Motivated Full Stack Developer with hands-on experience in building scalable web applications using the MERN stack. Proficient in creating responsive UIs, designing RESTful APIs, and managing full project lifecycles from development to deployment. Strong collaborator skilled in Git/GitHub, debugging, and performance optimization.

EDUCATION

BCom ACCOUNTING AND FINANCE

KMCT ARTS AND SCIENCE
CHATHAMANGALAM
2019 - 2022

HIGHER SECONDARY EDUCATION

NHSS NANMINDA
2017 - 2019

SKILLS

BACKEND TECHNOLOGIES

- Node.js
- Express
- MongoDB
- Mongoose
- JWT Authentication
- RESTful APIs

FRONTEND TECHNOLOGIES

- ReactJS
- JAVASCRIPT(ES6+)
- CSS3
- HTML5
- Responsive Design

DATABASES

- Mongo DB

TOOLS AND TECHNOLOGIES

- Git
- GitHub
- Postman
- JIRA Board
- VS Code
- MongoDB Compass

CERTIFICATIONS

- Introduction to Java- simple learn
- Bachelor of Commerce in Finance Calicut university
- MERN Stack -simple learn

WORKSHOPS

- Writing Research Papers and Filing Patents
- International Workshop on Data Science

WORK EXPERIENCE

ME(A)RN STACK DEVELOPER INTERN

INMAKES Infotech PVT. Ltd, Kochi (Present)

07/2025-PRESENT

- Acquired practical experience in designing and building full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- Create and optimized full-stack web applications with responsive front-end and secure back-end APIs.
- Collaborated with mentors and team members to debug and improve project performance.
- Learned best practices in version control (Git/GitHub) and deployment

INTERNSHIP EXPERIENCE

JAVA FULLSTACK DEVELOPER INTERN

Simple learn in online

05/2024

- Implemented full-stack applications using **Java, Spring Boot, Hibernate, MySQL** and basic front-end modules.
- Enhanced and consumed **REST APIs** and integrated front-end interfaces using JavaScript/React.
- Participated in code reviews, debugging, and improving backend performance.
- Gained exposure to MVC architecture, database schema design, and API optimization.

PROJECTS

GARAGE MANAGEMENT SYSTEM

React.js, Node.js, Express.js, MongoDB, JWT,

- Built in full-stack Garage Management System with role-based dashboards for Admins, Garage Owners, Insurance Agents, and Mechanics.
- Implemented secure JWT authentication, RESTful APIs, document storage for managing vehicle and insurance records.
- Created interactive dashboards in React.js for real-time data Visualization, maintenance tracking, and reminder notifications.
- Improved system performance and user experience through optimized backend logic and responsive front-end design.

HOSPITAL MANAGEMENT SYSTEM (BACKEND)

Node.js, Express.js, MongoDB

- Engineered the backend system for a Hospital Management platform using Express.js and MongoDB.
- Designed MongoDB schemas, implemented CRUD operations, and ensured smooth backend data flow.
- Tested all APIs using Postman to ensure reliability and accuracy.
